

# Guide TO RECYCLING

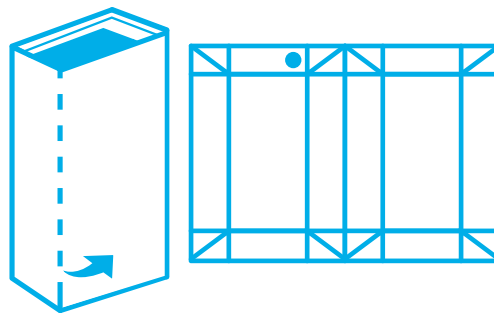

Follow these four steps to correctly prepare your Anchor™ 1L milk cartons for recycling.

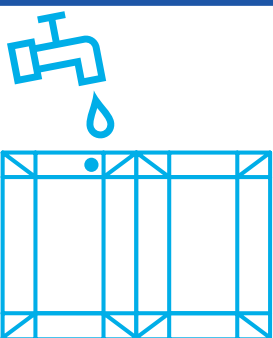

**1 CUT** along the top and sides of the carton.

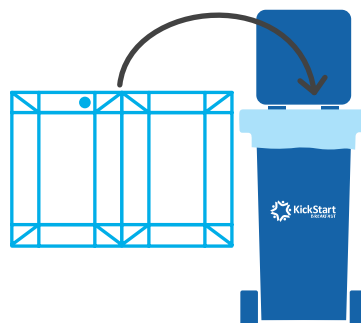

*\*Note: leave the Cap attached*

**2 OPEN** the milk carton completely.

**3 CLEAN** milk carton by rinsing with water.

**4 DRY** your milk carton and then store in your lined recycling bin or in a designated container.

Recycling needs to be ready for collection to coincide with your next Anchor milk delivery.

For Health and Safety reasons your Anchor milk team won't be able to collect recycling that isn't clean and dry. **Please also ensure your recycling bin remains free from rubbish contamination.**

Thank you for your commitment to ensuring your milk cartons are recycled correctly!
