

Used cartons are rinsed, drained, dried and flattened before being placed in your Fonterra recycling bin.

Save

Recycling Journey

Bales are sent to SaveBOARD recycling & manufacturing facility in Hamilton, NZ.

Your school aligns recycling collection with next milk delivery. Anchor milk team collects bags of clean, dry recycling.

> **Recycling is** consolidated into large bales.

3

Bales are shredded, mixed, and hot-pressed using machines similar to super-sized toasted sandwich makers!

5

6

This process creates boards and panels that can be used in the construction industry.

These can then be used to build more sustainable New Zealand homes and buildings.
